

Creation Resources ^(s)

If you hunt enough, you can find a few articles here and there that give actual facts, and not just tell you the short notes, which is basically what to think. This catalog has more of the deeper resources showing you the evidence and facts so you know what to think, and why.

We intend to add to this catalogue and list over time, meaning it's a work in progress. Have an idea?

Let us know at: info@RestoreMBI.com

We have seen many resources, but it is our opinion that the ones below are the best for deeper research. Most creation corporations have resources for kiddos which are easy to find, but this list will only include a few of those. Many other resources can be found by searching the websites below. And a few of these Biblical creation organizations also have creation-based curriculum books too.

At the top of this list are helpful resources for those who actually believe the Bible and that God is telling truth all the time in His Word. At the very end of this mini-catalogue is a list of liars who spin clever lies to blur truth and reality, i.e. intelligent design, evolution, "theistic" evolution and "evolutionary creation".

Symbol Code used throughout this chart:

*** the checkmarks are next to the ones that we highly recommend. = ✓

*** the triple arrows are next to ones that we believe are deeply helpful & want to own someday. = >>>
