

Priceless movie review
(A Jacob&Rachel study resource)

Hello brothers and sisters in Christ, and friends,

So, this movie touches on something that has been getting national attention from the grassroots and even the "mainstream press" since 2001, Superbowl in Houston, TX. That subject is the human trafficking issue. There are several parts to the subject of trafficking, including: > labor, > baby, > child, > organs, > porn, and > sex. Many of these perverse categories of "business" are hid among perverse hot-spots in America, such as Follywood (California movie industry), Lost Vegas Nevada, Memphis and Nashville Tennessee, demonic-disney in Orlando Florida and California, as well as many more unnoticed hubs (see Bibliography for more).

If you want only nice pleasant notes about this movie or the problem of trafficking, then some things I'm about to say are going to surprise you, but I don't say them to get notoriety (the industry doesn't want honest followers of Christ speaking up anyway so they aren't going to honest share my or other similar info). I say these things because after a good number of years of research, reading, and discussing with fellow researchers I know I must join/lead more honest followers of Christ to speak up. So, please hear me out. The only lens we need to see through is God's Word (the Bible). If you want verses on what I'm talking about here, I've been writing Bible studies for youth, college, parent and children for years - all for free. If you want/need Bible verses, just ask. What I explain in the coming paragraphs is content for parents to read first, though not graphic. With that said, let's dig in deeper on this topic and movie.

The movie we are discussing here, and the topic I want to address in this is the sex-trafficking industry, or also known as the "sex-slave trade". There is so much to talk about on this topic. I can only scratch the surface here, but I can give you brief notes on the movie and this serious topic.

Let me start off by noting that I have seen a lot of groups who are helping rescue people from this slave-trade system... but I haven't yet found any honest followers of

Christ leading any of those organizations, because the Rockefeller's dictate that to become a 501c3 or 501c4, you must obey their rules and regulations, and that requires you to work with the Vatican's one-world false religion... nothing about the real Jesus of the Bible. And, the Rockefeller's requirements to become a 501c3 or 501c4 organization also require you to push the demonic-psychology and the Rockefeller's pharma-drugs. Both of which keep the victim from escaping and healing through God's Word (the Bible) and keep the abuser free to hurt/use anyone he (or she) pleases.

You can find some resources in the bibliography after the study, but let me first cover the movie content - helpful and concerns.

The movie is great as far as simply yet not graphically showing how the sex-slave trade works and how people can become a part of it with little knowledge. It fits the other resources I've read (see Bibliography), it fits the info I've seen myself in much research and it fits the information that I've been able to confirm with other researchers, including some on the J&R team (some anonymous).

One sad note is why they left the God of the Bible completely out, only giving light references to a "god" that the masons who run Follywood (and Universal Pictures) would be okay with. They did also show the tiniest crucifix a few times - which the Vatican elements of Follywood would be okay with. So, you will not find the gospel here - at all. Not even enough to understand repentance or the covenant relationship that is the starting point of salvation. What you will find here are some very very light words and references to let anyone - Christian, false religion, or atheist, fill in whatever they want. I'm sure "For King & Country" were happy to reduce that part because they don't understand or believe the gospel themselves either - as clearly shown in their songs. They have the same "good moral" message that many other fake "Christian" bands have. Sad, but true.

Another sad note is why they pretended/portrayed almost all law enforcement as though they "can't quite catch these shadowy *terrorist-esqe* pimps that run the sex-slave trade. That's not true at all, and the Smallbone brothers from Australia ought to know that well, because the British royalty and the Rothschilds and other elite families have been doing filthy vile sexual perversion and trafficking and sex-slave trade stuff in Australia for many decades. Australia is one of the worst places of trafficking on the planet - up with the US, Britain, Russia, China, Japan, Malaysia, etc. Wherever the boots of NWO/CFR military have overtaken the foreign government, the sex-slave trade thrives - under different names and disguises and excuses.

Another sad note, the Smallbone brothers were *not* honest about the situation worldwide with the "feds" coming in and helping break up brothels and the like. What keeps the brothels, prostitution, porn industry, and child and women sex-slave trade going worldwide are the ultra-perverse rich-tycoons here in the US and the royalty in every major country participating in it, while paying PR firms to keep the

public/peasants duped. And, here in the United States, the CFR ("Council on Foreign Relations" which is the Rothschild's hub of control here) make sure that they staff as close to 100% as possible in the CIA, FBI, DCF, DHS, TSA, NSA, etc with perverts. The gross type who have no care for humans, only in looking good while getting their perverse "wants" met, and not caring who they hurt to get it. And internationally, almost every large agency is part of half-covering-up the problems and obscuring the solutions... if not more so. You see, the only organizations that are allowed to grow to international size and prominence are those who are either as perverse as the Rockefellers and Rothschilds and 2000 similar elite-bankster families worldwide, or they are controlled by those who are. Honest followers of Christ always have to do things at grassroots levels if they are going to do and preach what Jesus did and told us to do. Remember that and it will help you catch liars a whole lot faster. And with that said, let me also note that "Interpol" and "Mossad" and other "police" agencies are equally infiltrated and run by perverse men and women. That does not mean that every officer or international agent is perverse, but it means you can't trust them or the "hotlines" for help because many are keeping the "industry" going while "saying" they are trying to "stop it". Keep that in mind. It's how the world we see runs.

So, what's the solution - simple. Don't help other large agencies create "safe havens" with a worldview without the Bible, create safe-havens around you. Start one. Become a faithful and pure follower of Christ yourself and teach others to do the same, and as you grow, build a network around you that you trust - to the extent that they love and follow the Word of God (the Bible) too. We have to build from the ground up - worldwide. That is the only solution.

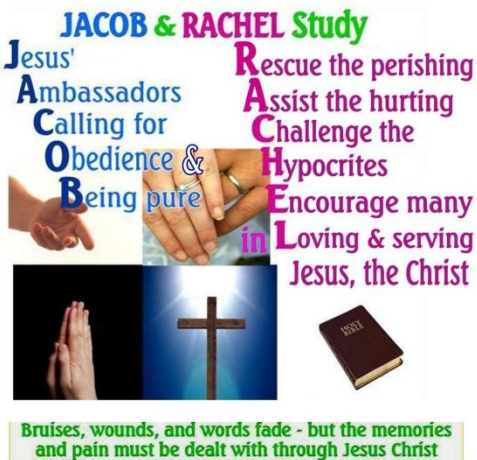

I need to also note that in the topic of "human trafficking" and specifically the sex-slave trade, there is a split between victims/slaves and those who became accustomed to it and decided to live as perverts. Helping those two very different categories takes knowing the Word of God (the Bible) and noticing if the person is tired of the sin and helping them hate the sin enough to flee it. Until they hate the sins that have been done to them and that they (some of them) are used to doing, you can't rescue them. We are all just human and without the help of the Holy Spirit and a healthy fear of the Lord and the consequences of sin, we too can fall to the sins they are in. So we can't be their hero, but we can help them - but only if they want it. If they hate the sin, they can be led to the cross. If they don't hate the sin, they can drag us (or try to) into their sins like a drowning person who isn't admitting they are drowning. Point being - be careful who you help and how much. Pray over every person and situation you find yourself in. As you seek God, He will supernaturally and providentially move you and keep you in safety, but you also have to walk pure and hold solid boundaries to snatch people from this part of the flames of sin and its consequences. If you choose to become a part of this deeper rescue effort, you will need to grow in cutting edge obedience, including kicking idols, addictions, and sin-pleasures out of your life as God shows them to you, so you can walk holy in God's sight with His complete protection. Anything else, and you can fall (at least some), but even there, learn from what you go through and keep your eyes on Jesus and growing to be what He shows Himself to be in Matthew, Mark, Luke and John.

So, I boldly commend "For King & Country" for trying to get the honest followers of Christ to notice, pray about, and find a way to help in a huge problem all around us, hidden from plain sight, barely. And for that reason I can recommend the movie, but I cannot recommend their resources - not even close. Notice also that "For King & Country" has a masonic shield as their band logo - they are controlled and promoted by masons who pretend Jesus is a "good man" and not God and Messiah. Just keep that in mind. They are pushed on us (as every other large "Christian" band is) as though they are "Christian leaders", but they're not, and their lifestyles and lukewarm messages are your proof. Also, Stephen Baldwin is another "Christian" pervert in Follywood - you can't trust him either, but he did contribute to this project. Universal pictures is part of the sex-slave trade, on the movie side of things - with Follywood - you can't trust them either. And the guy they got to do the role of the pimp "Carl", he has done sick "movies" such as "Suicide Squad" - just another proof that you can't trust the team who made, produced and promoted this movie, but you can glean some things from it. "Compassion International" is part of the fake international philanthropic agencies, and they are part of the problem, not the solution - but they advertise themselves as helpful.

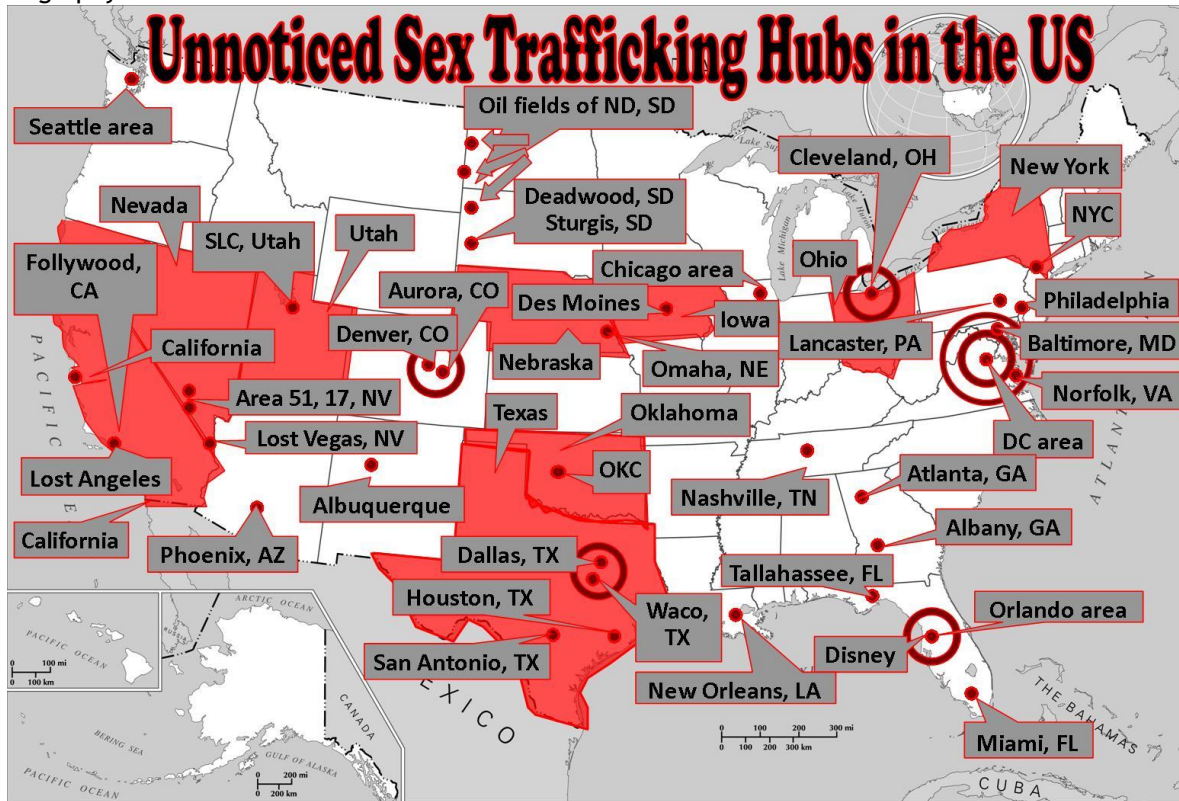

In conclusion: I would suggest a completely different alternative to their set of "resources" or even their "movement" website. Pray for God to show *you* how to start a safe-network right where you are. Let me know if I can help. Please also pray for the other honest followers of Christ, around you and around the world, who are doing the same.

Introductory notes:

If you look at international maps of the human trafficking problem (sex-slave trade and kidnapping, etc), you would think that Russia and other locations are a huge problem, but the US is almost no problem at all. And yet most of the NWO leaders who cause the problems worldwide live here in the US. They just work overtime to keep their scandals a secret. It's time to change that. Honest followers of Jesus Christ need to be careful to not falsely accuse people, but we need to stop being ignorant and simple-minded too. 2nd Corinthians 5 explains that God has committed the work of dealing with evil to those who are His children - adopted through Jesus Christ. And, Ephesians 5:11-13 commands us to expose evil deeds (discreetly). John 3:16-21 is another confirmation passage too - Jesus' teachings to Nicodemus. It's time to speak up against evil we see, and start finding ways to stand up to abusers and protect those they are abusing. Romans 1 makes it clear that God's wrath is against all sexual sins - the deeper the sin, the longer the consequences God issues. There is forgiveness, but that doesn't delete the consequences from God, the Creator and Judge, against those sins. We need to, as honest followers of Christ, expose the clergy, govt leaders, police, and employers, etc who are abusing people in ways that have long been overlooked, but the Bible clearly explains need to be correct. Let's

"Land of the Free, A prayer guide to end human trafficking in America" by Nicholas Canuso. Mr. Canuso is part of the NAR and IHOP both groups are highly disrespectable and liars, even pushing outward religious shows to fool the gullible. So, my suggestion if you read his book is reject his "religious" stuff and fake "prayers", but you can glean a lot from his research. It confirms what I have found through others sources.

"God in a Brothel" by Daniel Walker - an undercover agent who helped to some extent break up many sex-trafficking hubs and to free many ladies and children from them... but was immoral enough times to ruin his own marriage in the process. Still plenty to glean from in this book.
