

The Telcos, the Unions and you

(Telecommunication companies, Jesuit/Mason-led unions, and you)

<https://www.incpu.org/telcos-unions-and-you.htm>

<https://www.incpu.org/telcos-unions-and-you.pdf>

The Masonic/Jesuit unions are causing chaos with a direction.

Hello folks, this is an INCPU News short report on a topic coming to a communication tower, cable or satellite signal near you.

Some of you are aware that some AT&T workers are striking - the supposed reason being for "better pay", but I believe we have uncovered info that explains that there are at least a few other serious issue here.

Many of you are already aware that the Jesuit-run industries are pushing (yes pushing) 5G in the large cities or metroplexes. Why? Because it blasts everyone with EMF (causing the damage to cells that is falsely labeled "cancer" by the Jesuit medical system) and makes the tech-gear for military easy to use so they can declare martial law in an area, while also simultaneously shutting down phone connections - when they want to and think they can get away with it. Btw, in case you hadn't figured it out, we-the-people don't want 5G, but the liars that run the media and advertising campaigns have to lie to us to convince us we want it. Cheap lying trick... but it gets used a lot more than people realize. It's called "shifting the blame". Here's a few reasons why we need to push back and even prosecute the criminals forcing us to have to upgrade.

> <https://prepforthat.com/5g-health-risks/>

> <https://www.electricsense.com/5g-radiation-dangers/>

And while we're at it, remember that all of the latest tech blasts your body with extreme amounts of various types of radiation - that leads to inflammation and causes a growing amount of pain.

Next topic - moving your telecommunications overseas. Yes, you read that right. You see, what many Americans do not realize is that the "Fortune 500" companies are ruled by the ruthless (who stepped on people to get there) and many are outright satanists and/or closet Jesuits - which is basically the same thing. But, *they* don't want *you* to realize that you literally are surrounded... because then we'd all start working like small communities and getting to meet your neighbors and buying from farmer's markets more - and good stuff like that. So, they just pretend that the "next generation is so selfish that they are demanding the increase in technology" while they control the strings and the propaganda, (*ahem*, I mean "advertising") to force us to go *their* direction. Yes, I'm sorry - it is that harsh and they are that evil. > smaller - <https://www.incpu.org/who-owns-who.jpg> > larger -

<https://www.incpu.org/who-owns-who1.jpg>

P.S. If you read much on the symbols, you will quickly see that the Jesuit press has sadly convinced many of the truther leaders and even some Christian leaders to blame the various idolatries on the Jewish people. No... the pagans in Canaan were living much *worse* than Israel, but today's fake-stream "media" tries to blame Israel and the Jewish people for things they never did (nor would do) to get the heat and attention off of the Vatican, Rome and her Jesuit infiltrators and saboteurs. So, if you look at it through God's lens, and realize that Rome and her many idolatries and mythologies are Roman/Jesuit and not Jewish, you will be able to figure the issues out.

So, yes, the top Fortune 500 companies *are* conspiring with NWO leaders to overthrow the US Constitution. You would be surprised how many leaders you respect who seem to have a "good name" in news and the public limelight are working behind closed doors with Jesuits and the one-world government mafia. We here at INCPU have been reporting on it for almost 20 years and so have our citizen journalist friends, and some of the alternative news sites. If you want to see any of our reports on various subjects, just ask. You can find some of them at our archives.

Which leads back to the original topic again, the oddities with telecommunications. Some of you are aware that these super-large corporations who think that their top leaders are too big to prosecute are actively working to spy on you. Yes, that is true - many more things around you spy on you, your health, your activities, and conversations than realize. Want to have a private convo with your spouse (husband + wife) and/or children? Go outside, away from windows, with no smart watch or phone anywhere around, and you can talk pretty much safely there. And, if you want to sleep better, turn off your router at night, and keep smart-devices *out* of your bedroom or away from where you sleep. Simple tips like that can help tremendously. Want more tips? Just ask. My friends and I would be very glad to help however we can - including with health resources we trust, or that can be gleaned from. As you can see, the team here at INCPU and FEDBP (and our fellow citizen and alternative news

journalists) know that we must speak up anyway, because we care about people, and we know that the more we stay in God's Word, the more He will help and protect those who love holiness and hate what is evil, and diligently seek to please our Creator.

> <https://www.incpu.org/wearabletech-EMF-and-you.htm>

So, yes that's now 2 key things - increase in EMF/5G and spying, and the individual concerns with both. Another key topic is that the change in communication tech is always altered to limit our communications from interfering with the NWO/Jesuit geo-engineering projects. You can read more about that here:

> <https://www.incpu.org/GeoEngineering-INCPU-report.htm>

And here: > <http://contrailscience.com/contrails-and-chemtrails-the-ifaq/>

The next concern and probably the biggest reason for these Jesuit/Mason-led strikes is to allow a seemingly "plausible" excuse for the high-level criminals involved in spying and telecommunications to move their operations overseas. Why? So they can't get prosecuted for committing treason against the US public and for their many numerous violations against at least 2 of the Bill of Rights.

> <https://www.blacklistednews.com/article/74412/ny-investigates-frontier-communications-as-us-telcos-slowly.html>

> <https://www.comparebusinessproducts.com/fyi/10-big-businesses-that-have-moved-abroad> Btw, they are not fleeing the US to get away from paying "taxes" to the 7th illegal and unConstitutional private bank in US history - the so-called "Federal Reserve". They already get around paying taxes... most people just don't realize it. They are fleeing to avoid getting prosecuted, but when we the people shine a light on them and their evil deeds and naming names and dates and crimes, it helps all of us hold their feet to the fire - so to speak. God commands us to expose evil, and that is what Jesus and John the Baptizer and the apostles did, and so should we. Amen?

Lastly, the people who are caught in the cross-fires of these new schemes need your prayers. Many have families and children and they don't want to be a part of this union vs the people conversation... but they don't know what to do. They need our prayers. Will you join us in praying for boldness in them exposing the evils they can see, helping us (we-the-people) to catch the crimes that we can do, so that we can all work together to stop the next murderous wave of the Jesuits? Thank you to those who do and God bless you.
